

# Hello airlines & travel companies

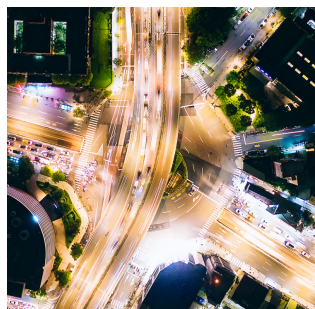

Are your collateral or rolling reserve requirements irrational?  
Do you have to wait too long for payments to settle?  
Are your charges unreasonable?  
Do you need help with payments or trusts?

Trstpays is already solving problems for major global companies. Our unique approach, combined with our unrivalled experience in payments and travel trusts, has enabled us to build a market-changing proposition.

## INNOVATIVE APPROACH

We use a financial trust and a database of your bookings to release your money an agreed number of days before the customer receives your service.

## NO COLLATERAL

Improve your balance sheet and cashflow by eliminating collateral and rolling reserves. Full capital paid with no holdbacks.

## ACCELERATE SETTLEMENT

Funds are settled on an agreed number of days before customer travel. The average settlement time is faster than any standard processing agreement.
